Ambitious Survey Underway Will Point Up Growth Of Glades ...

The following letter from the Glades Committee of the Palm Beach Resources Development Board is being sent to local business firms.

Lack of mortgage financing in the Glades for the past several years is one of the factors that has kept us from growing at the rate enjoyed by most of our other Florida areas, particularly with respect to new housing.

Major insurance companies having money available for mortgage financing, believe that the Glades is strictly a seasonal area with payrolls only for six months out of each year. They believe that this area dies during the off-season each year. It is up to us to prove that we have a tremendous payroll with a tremendous number of workers employed on a year-round basis.

In order to prove our contention, we have asked the Florida State Employment Service to conduct a confidential survey to determine actual payrolls and actual numbers of persons employed during each month of the year.

As soon as they have received the information from ALL Glades employers, farm and non-farm, they will compile a report showing this information so that we may present it to large mortgage financing companies in order to insure the continued growth of our wonderful Glades.

May we count on you to return your report as soon as possible.

Cordially yours,
CLAUDE L. SHIRLEY,
 Chairman

"It is quite possible," Lee L. Smith, Manager of the Florida State Employment Service said, "that some employers will be missed in this survey. We are interested in the entire earned income by months in the whole Glades. If any employer in the Glades has not received a copy of the letter and survey form, he is urged to let our office know by phone as soon as possible so that the survey form can be mailed immediately to him."

Our office number is WYman 6-3474. This newspaper is most anxious to see that these figures are made available to the financial institutions who's decisions will make the difference between a fast growing or a slowly dying Glades. Every employer, large or small or just self employed is urged to send in their survey form immediately, and if they have not received it, to call the Employment Service to obtain the form.

Double Pleasure
 I just got back from Tallahassee. It's about as pretty a state capital as any in the U.S. and I've seen most of our friends find out what was new. I did find out that it takes an awful lot of money to run this big state of ours. I guess you're wondering the money. Well, where does the money come from? Well, I spent a very pleasant evening with some of these fellows in the know who were drinking a friendly drink of beer and he said, "You know something, Joe—this beer we're drinking is really double pleasure." I had to ask what he meant and he said,

of the chairs and sofas at Collins Furniture Store. If you have children or pets, it's a real life-saver. You can't detect it with the naked eye—just look at the tag that says "Synthetic Wool." In addition to all kinds of furniture, Mr. Collins handles Everdur outdoor motors. The 35 H.P. "Lark" is a beauty!

The "best" in materials—honed names such as "Wam-stuta," "Bates," and "Fruit of the Loom" in stock are in plentiful supply at Best's Dry Goods Store on S. W. Ave. B. The newly printed stripes and plaids will make you want to get busy with your sewing machine. If, however, you haven't the time or the inclination to sew yourself, there are Easter dresses ready made for women and children—no one way or the other, you should have a new spring outfit. Best's is headquarters for the well-known name brands. You can place an order for any one of the dozen printed in the catalog, and Mrs. Best told me the soon to be new item is called "promotional" spreads. These will come in three colors, and like all the Bates line, they are pre-shrunk, fast color, 100% cotton. This will be a chance to get high quality spreads at a special price.

When you talk with Claude Shirley, the conversation quickly gets around to the Glades Concrete Block Plant in Belle Glade. Shirley Brothers, Inc., who are erecting the only Concrete Block Plant in the Glades right here in Belle Glade, are the ones who are doing the thing that spells progress. "We have faith in the economy of the concrete block," Shirley said, "and are ready to gamble everything we own on its future." I might add that Mr. Shirley is a member of the Glades Committee of the P a m Beach County Resources Development Board, and most active in civic work. He is an excellent example of the statement "When you want something done, give it to a busy man."

The warm weather we have been having makes air conditioning for your home or office sound pretty enticing, doesn't it? Hooks & White Radio Service has just received a new shipment of 1 ton Emerson room air-conditioning units, and now is a good time to act before the big rush is on. It was news to me that some of these 1 ton jobs operate on 110 volts; somewhere along the line, I had acquired the misinformation that all 1 ton jobs operate on 220 wiring, but "ain't so!" Mr. White showed me the RCA Fluorid range, refrigerators and washing machines which you have probably seen Frank Allison demonstrate so effectively on TV; and he also pointed out the new Admiral Dual-Temp automatic defrost refrigerator with the new "Life-guard" inside door release. A round disc glows in the dark and the slightest pressure on it immediately releases the door. Good idea!

If you save time by doing your grocery shopping only once a week, on a day other than Friday or Saturday, you can save money too, by checking Case Rate's 9-day specials. Their sale prices are in effect not only for the week end, but for the entire following week as well. For example, a new list of specials will start next Thursday, March 28th and continue through Saturday, April 6th. If you're reluctantly admitting that it's "that time" again (housecleaning time, I mean) you may find that the job will be easier with the proper supplies and equipment. You can find them all at Case Rate. There's free delivery service too.

Milton Barry, manager of the Kilgore Seed Company on Main St., told me some interesting things about the development of his company. It started forty years ago with one store in Plant City, and has now expanded to fourteen stores located throughout the peninsula of Florida. Barry is the heart of the state's agricultural area. In that time, Kilgore's has become more than just a seed business; in fact, the sale of seeds accounts for only half of the total business today. They report that they supply anything that a farmer needs: insecticides, agricultural chemicals, equipment, and technical

Yes, Mr. Visiting Businessman...

"You'll like Florida's Golden Business Climate"

says The Hon. LeRoy Collins, Governor of Florida

Every businessman "investing" in our Sunshine State owes it to himself to investigate Florida's great business opportunities.

Government at both state and local levels is friendly to business development. Investment capital is not only welcome, but it flourishes in the state's increasingly sound and expanding economy. There are no state income, duplicating laboration or ad valorem taxes — no punitive tax levies.

Equally important, skilled workers are filling jobs as fast as they open up under Florida's expanding commercial and industrial expansion. There are no labor recruitment problems here. And, of course, for you and your family, there's the priceless "plus" of Florida living!

Elderly Couple Die Car Runs Into Canal

Frank Edward Whiteham, 78, and his wife, Minnie, 70, of Detroit, Mich., were drowned Sunday afternoon after their car plunged off the shoulder of the highway into the canal about 12 miles east of Belle Glade on Sr. 80.

The couple were pronounced dead on arrival at the local hospital after artificial respiration and a Florida Highway Patrol rescuer failed to revive them.

Witnesses said the Whiteham car going East at about 60 miles an hour suddenly ran off the left side of the road into the six foot deep canal. No cars were approaching from the other direction at the time. Victor Weiskopf of Pennington, N. J., in a car behind the Whitehams, dove immediately into the water and brought the couple to the surface.

At the time of the accident, Trooper Harold Smith of the Florida Highway Patrol said it was not known who was driving the car, but friends at the Webering Funeral Home later said that Mrs. Whiteham did not drive, and it is possible that Mr. Whiteham might have had a heart attack. Aiding in righting the couples car were Ralph Marotta of Belle Glade and Howell Warren of Ft. Myers. Patrolman Racy Webering of Pahokee also assisted in the investigation.

BG City Manager Lands 6' Sailfish

Clarence E. Robinson, City Manager of Belle Glade, had a very successful deep sea fishing trip, while fishing with Captain Ray Young about the "Spray" out from Stuart, Fla. Robinson had the thrill of landing a 6' 2" sailfish which he is having mounted.

Stuart Sailfish Club, world renowned conservation group, has issued a citation and button in recognition of the catch. Mr. and Mrs. "Buddy" Willis and Miss Cynthia A. Slater were also in the party.
